AquaFarm & NovelFarm, postponement announcement:  
next edition will be taking place in Pordenone Fiere in 2022, 16-17 February

*Pordenone Fiere has announced the postponement of AquaFarm and NovelFarm dates that will be rescheduled back to their original dates, in February.*

14 April 2021. Following a careful assessment of the possibility to let a physical event take place, Pordenone Fiere has decided to postpone AquaFarm and NocelFarm, alongside the new project AlgaeFarm, in 2022, to grant a safety exhibition and satisfy all participants, exhibitors and visitors. **The appointment will be back to its original placement in the calendar, as for last editions, in February, 16<sup>th</sup> and 17<sup>th</sup>.**

Following the success of the Digital Preview, held March, 25<sup>th</sup>, the physical exhibition will be anticipated by a **digital preview that, alongside live streaming sessions of conferences, will offer companies the possibility of both promoting and networking on a dedicated platform.**

Some numbers on the past digital preview: more than **450 participants** have joined the live streaming, which were owners, employees of the aquaculture sector and vertical farming, producers of technologies, distributors, researchers and journalists. The audience has confirmed the international vocation of the exhibition: **15% of the participants were international** connecting from the United Kingdom, the Netherlands, Germany, Croatia, Slovenia, Czech Republic, Denmark, Portugal, France, USA and Norway.

While waiting for February 2022, Pordenone Fiere will organize a new appointment this Fall.

***AquaFarm*** is the international conference & trade show dedicated to **aquaculture and sustainable fishing industry**. ***NovelFarm*** is the most important Italian event dedicated entirely to **new cultivation techniques, soilless and vertical farming**. ***AlgaeFarm*** is the new appointment dedicated to technologies and applications in **algaculture**.
