EXHIBITOR REVIEWS

“...the audience was a true surprise for me! This solid professional participation for a new innovation driven fair is a sign for a transformation in an industry, that is normally adversely interested in innovation - quite a serious global phenomenon, seeming the agricultural sector is finally undergoing some important changes with integrated controlled environmental agriculture (CEA) and attracting young farmers and this event is leading this move, congratulations!”

Tom Zöllner/Vice-Chair Board of Directors A VF

“Choosing an exhibition for a start-up is not easy. We went to Pordenone and we didn’t make a mistake! I discovered many interesting initiatives regarding the vertical farming in Italy. I had also the chance to listen to the aquaculture experts, a very interesting sector for the future.”

Yanni Garcia Postigo, co-founder PlantHive

“Good show with the opportunity to meet experts and to get insights into the horticulture industry.”

Claudia Zehnpfennig, Product Manager Horticulture Lighting, OSRAM GmbH

“There were a lot of visitors interested in the topic of vertical farming. It is the only exhibition in Italy with an area dedicated to the vertical farming.”

Matteo Benvenuti – Vertical Farm Italia

“The event is awesome! Really well organised and loads of interesting talks and stands. Consider me suitably impressed!”

Mark Horler- The Soya Project and Re-growth – LinkedIn

CO-LOCATED:

110 exhibitors

30% foreign exhibitors

+ 80% of the exhibition space compared to the 2017 edition
PRODUCT CATEGORIES

- Artificial and natural lighting systems
- Systems for fertigation
- Environmental control technologies
- Complete systems for aeroponics, hydroponics, aquaponics
- Components for aeroponics, hydroponics, aquaponics
- Manufacturers of greenhouses and their components
- Systems for composting and anaerobic digestion of waste
- Systems for the production of energy in a cogeneration system
- Photovoltaic and microeolic energy production systems
- Water control and management
- Technologies and products for the collection, processing and packaging of food macroalgae
- Technologies and products for the cultivation of microalgae
- Fertilizers, stimulants and plant growth regulators
- Crop management systems
- Crop control software
- Sustainable crop protection techniques
- Cultivation in Vertical Farming
- Integrated agriculture
- Cultivation technologies, climate control
- Certifications
- Seeds and rooted cuttings
- Software
- Consulting
- Specialized Press
- Producers and distributors of seeds
- Collection systems
- Packaging systems
- Substrate suppliers for hydroponic crops
- New crops
WHY EXHIBIT AT NOVEL FARM 2019?

- The only international B2B event in Italy dedicated to vertical farming, soilless and new growing systems
- A fast growing international trade show
- It offers an opportunity for professional updating and networking
- It combines an international trade exhibition along with a high-level conference program

2018 EDITION
